1. Executive Summary

{ "executive_summary": "The AIIII AI Hackathon is scheduled to take place in Prague on December 12, 2026, with an expected attendance of 170 guests and a total budget of €10,000. After a comprehensive review of all specialist recommendations—including venue, catering, budgeting, programme, speakers, scheduling, registration, communication, activities, and entertainment—the event plan provides a balanced, actionable, and risk-mitigated approach. The top choice venue, a revitalised railway station in Bubene■, ensures ample space and fits comfortably within the financial and logistical parameters. \n Programme design maximizes hackathon productivity and guest engagement with a full-day sequence featuring a keynote, hands-on workshops, team-based coding, and interactive activities. Catering will be provided by Zátiší Catering, renowned for its capabilities with large tech events, offering flexible buffet menus at competitive rates that support dietary needs. All specialist outputs w
